TGP *forza*

Is security a priority for you?

### Is security a priority for you?

A burglar's preferred mode of entry is through a balcony door or a window. A burglar prefers to spend a maximum of 60 seconds on breaking and entering. Any measure that can increase this time limit is major deterrent, and TGP has those measures.

TGP Systems offers a wide range of home security measures such as mushroom locks with striker, anti-theft corners, middle locks and gears, lockable security handles, special door locks with hooks. Your windows and doors will have the latest anti-theft European norms with these products. For more information, [www.tgpsystems.com](http://www.tgpsystems.com)

TGP *Tilt First* system is the ideal accident prevention solution for children rooms, kindergartens, hotels and dormitories. It will keep the little ones safe.

Keeping you fresh

### Keeping you fresh

Inside air can go bad real fast. Household chemicals, dust, paint, pollutants carried from outside can deteriorate the air quality inside a living space, leading to health issues.

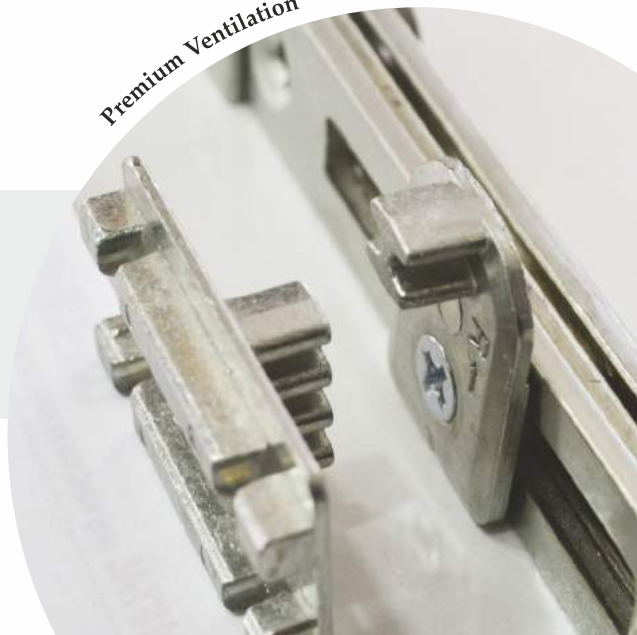

Our main focus is to improve your ventilation. To that end, we have several solutions. With TGP Systems you will always have fresh air in all kinds of weather.

For more information, [www.tgpsystems.com](http://www.tgpsystems.com)

TGP has 3 solutions for better indoor ventilation: standard, advanced and premium ventilation.

Premium Ventilation

Designing better homes

### Designing better homes

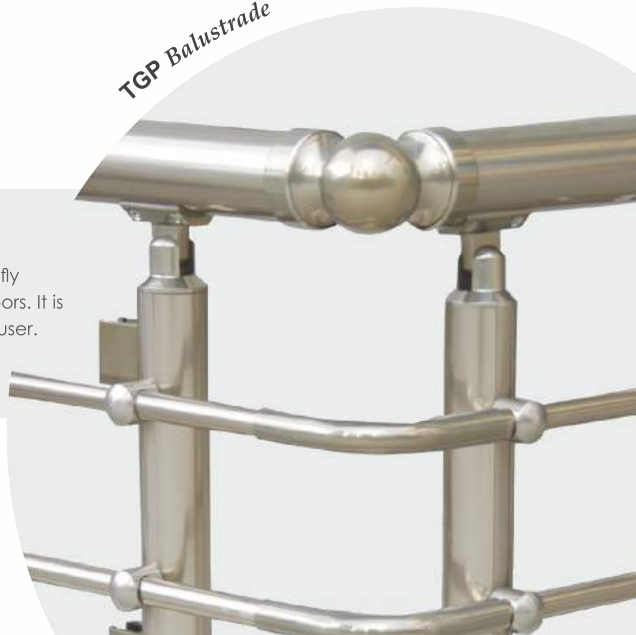

TGP Systems has a wide range of products for manufacturers, architects, designers and end-users. With our vast international network of professionals and customers, we are always on top of the industry. We observe the latest trends, keep a keen eye on new products and developments, and this helps us design state-of-the-art products.

TGP aims to bring you comfort with intelligent solutions. Some of our architectural solutions include plisse fly screen systems, aluminum balustrade options, profiles and special coating systems.

TGP caters to every need for doors and windows. TGP plisse fly screen system is the perfect solution for wide and special doors. It is functional, tear-resistant and very easy to install by the end-user.
